

EM-1130 | Pole Mount – 2”

Description

The EM-1130 Pole Mount is designed to be mounted directly to any 2 inch diameter pole using vibration dampening u-bolts. The mount can be placed either vertically or horizontally on a 2” diameter pole. The mount can be used in conjunction with our rugged omni-directional antennas, EM-6841 and EM-6843 or the standard, EM-6856. It can also be fitted to our small-scale omni-directional antenna, EM-6725.

Mechanical
